Trackword

R	O	N
E	A	G
C	N	I

Track from letter to adjacent letter – going up, down, across or diagonally – making words of three letters or more. What is the hidden nine-letter word? Brainbox: 38 words; average 20.

A full list of the answers to the puzzles and the Trackword can be seen on page 179 of Ceefax on Friday and Saturday.

Last week's answers: **Links** – FOUR. **Sweet Share** – THE SWEETS WERE 2½P EACH. **Trackword** – JELLYFISH.

BACK STAGE

● Only the tune and the Tardis are the same. Everything else has changed – including the main character four times – during the 18 years that Doctor Who has been travelling endlessly through space and time.

A whole generation in Britain has grown up watching the scary bits from behind the sofa. And now we can look back at some of the epic adventures of our space hero and his many helpers in **The Five Faces of Doctor Who** (Monday-Thursday BBC2).

For the next five weeks, all the doctors – William Hartnell, Patrick Troughton, Jon Pertwee, Tom Baker and, very briefly, Peter Davison – will be starring in

Who (left to rights) Universal wrongs? William Hartnell, Patrick Troughton, Jon Pertwee, Tom Baker, Peter Davison

repeats of classic stories.

It begins on Monday with the very first episode, first shown in black and white in 1963. It was called *An Unearthly Child*, and it's hard to imagine now the impact that it had. The Doctor and his Tardis were headline

news, and there was such a clamour from viewers who wanted to see it again – and from those who had missed it – that the first episode had to be repeated the following Saturday!

Over the years, and with the different Doctors, came a whole galaxy of

interplanetary do-badders.

Popping up again as well will be a few of Doctor Who's famous sidekicks, including a young Frazer Hines as the killed Jamie and Katy Manning as Jo.

So the next few weeks are going to be nostalgic ones for those of us who remember all the

Doctors, and fascinating ones for the fans who joined the huge following later on.

And it will whet our appetite for the next series, starring Peter Davison, which begins in January

and, will be shown twice a week.

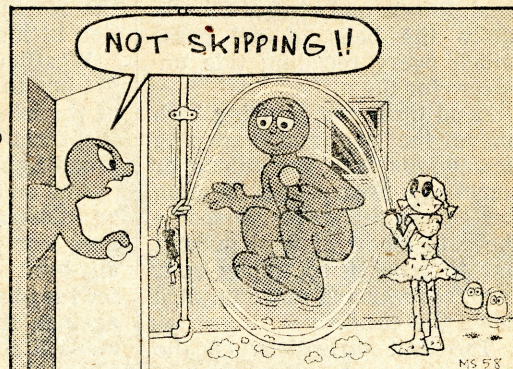

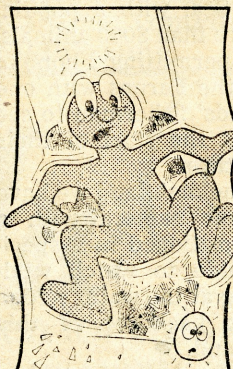

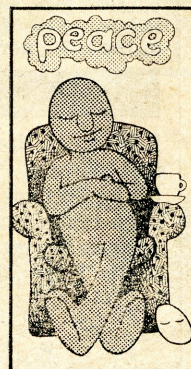

● You'll find lots of new programmes from around 5.40 onwards on BBC2, which will now give viewers a teatime alternative to BBC1.

Play Away Joke

Q: What do robots have for dinner?

A: Microchips!

MORPH by Peter Lord

3.5 Television World

The last of four films about television and its impact.

The Truth Game (part 2)

How far does television drama present a truthful and responsible picture of law and order issues?

Introduced by FRED EMERY with

ALASDAIR MILNE, SHAUN SUTTON

ALAN PLATER, RICHARD HOGGART

and SIR ROBERT MARK

Producer JOHN RADCLIFFE (*Repeat*)

3.30 Languages for Life

The fourth of ten case studies in multi-cultural education.

(For details see Sunday, BBC1, 10.5 am)

3.55 Star Movie:

A Stolen Life

starring Bette Davis

Glenn Ford, Dane Clark

Identical twin sisters, one good, one bad, fall in love with the same man and, as always, the gentle Kate loses to the vivacious and more worldly Pat. The dual roles provided Bette Davis with the chance to display the full range of her acting technique.

Kate Bosworth/Patricia Bosworth

The Adventure Game

by PATRICK DOWLING

The first of five programmes

Guest explorers

Graeme Garden

Carol Chell

Nicholas Hammond

Many light years away on the far side of the galaxy lies Arg, a small planet of little consequence, where the resident dragons, politely adopting a less frightening appearance, nevertheless enjoy making things difficult for visitors - day-trippers in particular. Last year one such tripper failed to return! The Rangdo, disguised as an aspidistra, watches the rescuers struggle to unravel the mysteries of Arg. But which of them is the 'mole'? Will they understand the 'drogna'? How many earth people will be evaporated?

*(A new series of Doctor Who begins on
BBC1 in the New Year)*

stone was outnumbered by two to one in the studio exchange. In my view Dr Rae and Mr McCrum dealt with all her essential points at reasonable length. I concede that the point alleging an anti-vocational bias in the public schools was slipped into a 'final word' (perhaps not as brief as it might have been) by Professor Blackstone, and am glad Mr Lloyd-Evans has raised it here. In general, though, not every programme can be absolutely balanced. Critics of the public schools could allege that documentaries like those on Westminster and Radley have a strong tendency to serve the interests of those schools.

Bergerac's better...

I would like to object most strongly to the letter from Mr James Rusbridger (RADIO TIMES 28 November-4 December) regarding *Bergerac* (18 October-20 December BBC1) and *Shoestring*.

Both series are far and away better than any of the awful American detective series we get.

If Mr Rusbridger wants documentary items about the police, I am sure there are plenty for him to watch; but on a Sunday evening what most of us want, and enjoy, is an exciting, escapist story with a delightfully human hero, beautiful heroine and real people in supporting parts.

(Mrs) J. Coe

Abingdon, Oxfordshire

Another series of *Bergerac* is planned. — LETTERS EDITOR

Who's oldest and best?

I must write to say what a delightful experience *The Five Faces of Doctor Who* (2 November-3 December BBC2) has been.

While the choice of repeats was not the one I would have made, the stories were a refreshing taste of past delights.

The only sad thing is that probably most of the stories I would

have called classics have had their videotapes wiped...

John Riley

Manchester

This letter is typical of dozens we have received. There are plenty of old Doctor Who stories still on tape, including some that feature Daleks; and BBC Archives are trying to track down other episodes that have been 'wiped' but were sold abroad.

LETTERS EDITOR

'Hi-De-Hi' should be dry

You could have picked a more suitable year than 1959 to set the series *Hi De Hi!* (Sundays BBC1) on the 'rain-washed Essex coast'. As your weathermen will doubtless tell you, 1959 was warm and dry from late February to October.

You could have chosen 1958, which was a very wet year, or 1956; but not, of all years, 1959. The sun never stopped shining!

Charles King

Stevenage, Hertfordshire

'Feedback' would like letters, too

Feedback returns to Radio 4 at the end of January, once again presented by Tom Vernon. If you wish to air your views or raise questions about BBC policy, procedure or programmes, write to 'Feedback', Room 7064, Broadcasting House, London W1A 4WW.

Results of appeals broadcast in August 1981: Lord Pitt's radio appeal for Pagnell Street Youth and Community Centre, £3,896; Kenneth Kendall's radio appeal for National Association of Youth Clubs, £4,793; Magnus Magnusson's radio appeal for Tenovus-Scotland, £4,428; Chris Searle's television appeal for Broadcasting Support Services, £500; Nigel Evans's radio appeal for One-to-One, £5,700; Clare Rayner's radio appeal for London Council for the Welfare of Women and Girls, £3,581.
